ABSTRACT

The seventh annual Higher Education General Information Survey (HEGIS) acquired these data in 1972-73 for students enrolled for advanced degrees in fall 1972. Included in this report are summary enrollment tables by level of study, attendance status, sex of student, discipline specialty, state or other area, and institutional control and level. The report also presents a listing of enrollments within each discipline specialty at each surveyed institution. The 1972 survey instrument, with definitions and instruction to respondents, is reproduced in appendix B. The totals shown in the data cells on the facsimile form are those obtained for the aggregate United States. (Author/KE)

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

HIGHLIGHTS OF THE DATA

Students Enrolled for Master's and Doctor's Degrees

Enrollments in programs leading to master's and doctor's degrees totaled 858,580 in fall 1972, an increase of 2.7 percent over enrollments reported in fall 1971. This is a slightly faster rate of growth than the 2.5 percent rise reported between fall 1970 and fall 1971.

Between 1971 and 1972, full-time enrollments decreased by 0.3 percent, while part-time enrollments increased by 5.2 percent.

Enrollment of women increased by 7.4 percent while enrollment of men declined by 0.1 percent. Enrollment of women constituted 38.0 percent of the total in 1972 compared to 36.4 percent in 1971.

The 539,985 first-year students enrolled for master's and doctor's degrees in 1972 represented an increase of 2.2 percent over the 1971 figure. The proportion of first-year students in these programs declined slightly, from 63.2 percent in 1971 to 62,9 percent in 1972.

Students Enrolled for First-Professional Degrees in Selected Discipline Specialties

In fall 1972, 201,245 students were enrolled in first-professional degree programs in the selected discipline specialties covered by this survey. This figure represents an increase of 5.5 percent over 1971, in contrast with the 2.7-percent rise noted for master's and doctor's degree candidates.

Between 1971 and 1972, enrollment of women increased by 34.3 percent, while men's enrollment increased by 2.9 percent. Enrollment of women, however, was only slightly over a tenth of the total (10.7 percent) in 1972.

The 72,454 first-year first-professional students in 1972 represented an increase of 3.6 percent over 1971. The proportion of first-year students in these specialties declined slightly, from 36.6 percent in 1971 to 36.0 percent in 1972.

FOREWORD

This report is based on the 14th annual Survey of Students Enrolled for Advanced Degrees (SEAD) in institutions of higher education in the United States. The National Center for Education Statistics (NCES) acquired the data in the fall of 1972 as part of the seventh annual Higher Education General Information Survey (HEGIS). Detailed data are presented in this report for individual institutions, and summary data are provided by State, discipline specialty, and institutional control and level.

Mary Evans Hooper was responsible for the conduct of the survey and the preliminary analysis of the data, with the technical assistance of Agnes Q. Wells. After the retirement of Mrs. Hooper, the report was prepared by Curtis O. Baker and Mrs. Wells.

For the fourth consecutive year, a response rate of 100 percent was attained in this survey. The National Center for Education Statistics is most appreciative of the continued excellent cooperation and efforts of registrars and other college and university officials who supplied the data promptly and conscientiously.

Edith M. Huddleston, Acting Chief
Higher Education Surveys Branch

Theodore H. Drews, Acting Director
Division of Survey Planning and Analysis

INTRODUCTION

Initiated in 1959, this survey was at first limited to the science, mathematics, and health-professions areas. It has been gradually broadened to its present scope of more than 300 discipline specialties intended to cover the entire range of instructional programs in higher education.

Included in this report are summary enrollment tables by level of study, attendance status, sex of student, discipline specialty, State or other area, and institutional control and level. The report also presents a listing of enrollments within each discipline specialty at each surveyed institution.

The 1972 survey instrument, with definitions and instructions to respondents, is reproduced in appendix B. The totals shown in the data cells on the facsimile form are those obtained for the aggregate United States.

The seventh annual Higher Education General Information Survey (HEGIS), which acquired these data in 1972-73 for students enrolled for advanced degrees in fall 1972, utilized the classification of fields of study published in *A Taxonomy of Instructional Programs in Higher Education* (OE-50064). Because of this new field-classification system, first used in the 1971 survey, any comparisons with data for years prior to 1971 should be made with care.

SURVEY COVERAGE AND METHODOLOGY

Institutions Included

Data tabulations in this report are based on information furnished by 931 institutions of higher education in the United States and outlying areas (aggregate United States).

The questionnaire "Students Enrolled for Advanced Degrees, Fall 1972"—part of HEGIS—was sent to all universities and other 4-year institutions in NCES' higher education survey universe for the 1972-73 academic year.[1] (The questionnaire and instructions to respondents are reproduced in appendix B.)

The 931 reporting institutions were the only institutions enrolling students for advanced degrees in fall 1972, as far as NCES could ascertain. The reporting institutions were distributed as follows:

- 545 had enrollments for master's or doctor's degrees only.
- 313 had enrollments for first-professional degrees as well as for master's or doctor's degrees.
- 73 had enrollments for first-professional degrees only.

Tables showing candidates for master's or doctor's degrees are based on 858 institutions, those for first-professional degrees are based on 386 institutions. (See appendix A for methods of classifying institutions.) Because all 931 institutions responded with complete survey data, it was unnecessary for NCES to make any imputations or to provide any estimates for data by sex of student, level of enrollment, attendance status, or discipline specialty.

Students Included

This survey included data on all students enrolled in programs leading to a degree beyond the baccalaureate, and covered the same student categories embraced by the 1971 survey. Part A of the survey questionnaire covered students studying for first-professional degrees in selected discipline specialties; part B covered students enrolled for master's and higher degrees. (See the section on "Survey Coverage" on page 2 of the survey questionnaire, appendix B, for a more detailed account of students to be included.)

[1] For a description of the higher education survey universe, see *Fall Enrollment in Higher Education, 1972* (DHEW publication no. 75-121). The *Education Directory, Higher Education, 1971-72* (DHEW publication no. (OE) 72-95) was the primary source for the list of institutions included in the survey universe, supplemented by any changes in fall 1972 known by NCES.

Students Excluded

Student categories excluded from the survey were the same as for the fall 1971 survey, namely, those:

(1) working for an advanced degree but not formally enrolled for the fall term.
(2) enrolled in graduate-level curriculums or courses that would not terminate in advanced degrees.
(3) designated as "special" and "unclassified" but not enrolled for advanced degrees.
(4) pursuing postdoctoral work.
(5) enrolled at a branch or extension center in a foreign country.

Student Classification

The 1972 survey, like the 1971 survey, classified graduate students according to two enrollment levels: first-year students and students beyond the first year. First-year students were those who had completed less than a full year of required study for an advanced degree; students beyond the first year were those at all other levels of an advanced-degree program.

Also remaining unchanged was the classification of enrollments by attendance status. As in prior surveys, a full-time student was described as one whose academic load was at least 75 percent of the normal student workload (coursework or other required activity) as defined by the institution. All students carrying less than 75 percent of the normal load were classified as part-time.

Data Verification

To obtain complete and accurate data, the completed questionnaires were examined, analyzed, and reviewed for compliance with instructions to respondents. Also, the data were compared with available data reported by respondents in previous surveys of students enrolled for advanced degrees, using the taxonomy table which translates the fields of study used in earlier surveys into the new coding system. Reference was frequently made to institutional catalogs and other materials for descriptions of programs and criteria. When appropriate, institutions were contacted by letter or telephone to obtain verification or revision of reported data. In some instances, when the number of enrollments reported in any area was significantly larger or smaller than the number reported in the previous survey year, institutions provided explanatory information.

The survey instructions requested institutions to classify enrollments for advanced degrees according to major field of study and to do so as specifically as the lists of specialties in the broad discipline divisions permit. For example, a student of educational psychology specializing in teaching the mentally retarded should have been reported under "education of the mentally retarded" (code 0810), rather than under the somewhat broader category of "educational psychology" (code 0822) or the broadest available category, "education, general" (code 0801). In practice, however, institutions can report data only to the level of detail provided in their individual recordkeeping systems. For some individual institutional programs, therefore, readers may observe differences between the categorizations they are familiar with and those shown in the institutional listings.

ORGANIZATION OF THE TABLES

The 10 tables in this report are presented in the same order and format as in the previous report. This unchanged format will facilitate comparisons between survey years. Tables 1 and 2 give overall summaries of 1972 advanced enrollments. Table 1 is restricted to candidates for master's and doctor's degrees and table 2 to candidates for first-professional degrees in selected discipline specialties. In these tables, data are presented separately for universities and for other 4-year institutions.

Classified as universities are institutions that give considerable stress to graduate instruction, confer advanced degrees as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other institutions offering 4 or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year and over" group.

Table 3 shows counts, by State, of candidates for master's and doctor's degrees. Table 4 gives similar counts of candidates for first-professional degrees in selected discipline specialties. Table 5 has counts by discipline for all advanced degrees. Table 6 presents additional detail on enrollments in individual discipline specialties within the broad disciplines reported in table 5. Table 7 is an institutional listing, by State, showing total enrollments for master's and doctor's degrees. Table 8 is similar to table 7, listing enrollments for first-professional degrees in selected specialties. Table 9 is a detailed listing of graduate enrollments for advanced degrees by discipline specialty, State, and institution. Each of the foregoing nine tables has separate counts by level of study (first-year students or students beyond the first year), sex of student, and attendance status (full-time or part-time). Table 10 presents enrollments for all advanced degrees by discipline division and specialty and by level and control of institution.

The user should note that since master's and doctor's degrees are awarded in addition to first-professional degrees in the discipline specialties of optometry, podiatry, law, and theology, enrollments in these areas are presented according to level of study. To account for all enrollments in these specialties it may be necessary to look in more than one table or in more than one location in a table.

It should also be noted that tables 5, 6, 9, and 10 deal with discipline division or discipline division and discipline specialty. They continue to utilize the new classification of instructional programs in accordance with *A Taxonomy of Instructional Programs in Higher Education.* This taxonomy and the translation tables were reproduced in the 1971 edition of this publication. When comparing data based on the old and new coding systems, the reader should consult the translation table in the taxonomy for earned degrees conferred and adapt this table to the survey of students enrolled for advanced degrees. The remainder of the tables in this report (tables 1-4, 7, and 8) are not affected in any way by adoption of the new taxonomy.

APPENDIX A

THE NEW METHOD OF AGGREGATION

NCES has become aware, over the years, of the trend toward multicampus institutions and entire systems of institutions, in which various units offer programs at different levels. It has become increasingly necessary to identify the level of program in each of those units separately, instead of following the traditional practice of a single identification for an entire conglomerate of units. There is also an increasing demand for analysis of the operations of individual units and for interinstitutional comparisons drawn on the basis of homogeneous groups. Therefore, beginning with the year 1971-72, NCES began classifying the constituent units of all multicampus and multi-institutional entities separately, thus making it possible by the fall of 1972 to survey the separate entities individually.

The traditional method of dealing with branches of universities was to classify them with their parent institutions at the program levels of the parent institutions. Under the new method of aggregation, branches are grouped with other institutions at the same level.

Each individual campus is coded in one of six ways:

- Code 1 – University (including only those branches classified at the university level);
- Code 2 – Other 4-year institution (including only those branches classified at the other 4-year level);
- Code 3 – 2-year institution (including only its own branches)
- Code 4 – 4-year branch of a university
- Code 5 – 2-year branch of a university
- Code 6 – 2-year branch of "other 4-year" institution

Using the traditional method of aggregation, the one which is used in tables 1-10 in this publication, institutions are aggregated as follows:

University = 1 + 4 + 5;
Other 4-year = 2 + 6;
2-year = 3.

The new method of aggregation, used in the tables in the appendix, is as follows:

University = 1
Other 4-year = 2 + 4;
2-year = 3 + 5 + 6.

Because this is a publication which deals only with enrollment for advanced degrees, certain categories of institutions do not appear in this publication. Codes 3, 5, and 6 all relate to 2-year institutions or 2-year branches of universities or other 4-year institutions. No "code 3" or "code 6" institutions reported enrollments in this survey. There were, however, five "code 5" institutions reporting enrollment: two in Alaska, one in Indiana, two in Ohio. A specific check with each of these institutions confirmed the accuracy of the reporting. In each case there were students enrolled for advanced degrees attending classes at the 2-year branch of the university. The total number of students involved in this arrangement was 1,006. Under the traditional method these 1,006 students were counted in the university category. Under the new method they are arbitrarily counted with other 4-year institutions.

The general impact of the new method of aggregation is to reduce the number of students shown as enrolled in universities. Among students enrolled for master's and doctor's degrees in public institutions there was a shift of 34,353 students out of the university category into the other 4-year category. Among the private institutions there was a shift of 9,004 such students. For students enrolled in first-professional degrees in public universities there was a shift of 18,839 students out of the university category into the other 4-year category. In the private institutions there was a parallel shift of 247 students.

To simplify comparisons between the new method and the old method of aggregation, each table which is aggregated by the new method has 100 added to the number used for the table aggregating the same data by the old method. These tables (101, 102, and 110) appear on the following pages.

HIGHER EDUCATION GENERAL INFORMATION SURVEY

STUDENTS ENROLLED FOR ADVANCED DEGREES, FALL 1972

PLEASE READ INSTRUCTIONS BEFORE COMPLETING THIS FORM

O.M.B. NO. 51—R0568
APPROVAL EXPIRES: 6/30/74

1. INSTITUTION CODE NUMBER

2. DUE DATE
Not later than November 30, 1972

Items 1, 3, 4, 5, and 6 MUST be completed by all institutions. If applicable, complete items 7 and 8. Submit a separate survey form for each of the campuses or branch campuses of the institution. If it is impossible to provide separate data for any branch campus, and the data for that branch must be included in the parent institution's report, indicate this in item 8 below.

3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT *(Include city, State, and ZIP code)*

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT *(Area code, local number and extension)*

6. THE INSTITUTION COVERED BY THIS REPORT IS *(Check only one)*

(a) ☐ A SINGLE-CAMPUS INSTITUTION

(b) ☐ A MAIN CAMPUS *("Parent" institution)* WITH ONE OR MORE BRANCH CAMPUSES AND/OR OTHER CAMPUSES *(Specify in item 8 below)*

(c) ☐ A BRANCH CAMPUS OF A PARENT INSTITUTION *(Write the name of parent institution below)*

(d) ☐ ONE OF THE ADMINISTRATIVELY EQUAL CAMPUSES OF A MULTI-CAMPUS INSTITUTION

7. IF THE INSTITUTION COVERED BY THIS REPORT IS INCLUDED IN AN "INSTITUTIONAL SYSTEM", WRITE THE NAME OF THE SYSTEM BELOW.

8. PARENT INSTITUTIONS (As checked in item 6), SHOULD LIST THE NAMES OF ALL THEIR BRANCH CAMPUSES BELOW. USE THE FIRST COLUMN TO SHOW WHETHER DATA FOR ANY OF THESE UNITS ARE INCLUDED WITH THE DATA FOR THE "PARENT" IN THIS REPORT.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH CAMPUS AND/OR OTHER CAMPUS	ADDRESS *(City, State, and ZIP code)*
☐ YES ☐ NO		
☐ YES ☐ NO		
☐ YES ☐ NO		

Data shown on the form are for the aggregate United States.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. *A* [illegible] *a resemblance to an institutional system, but* [illegible] *designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.*

MAIN CAMPUS. *In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.*

BRANCH CAMPUS. *A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.*

INSTITUTIONAL SYSTEM. *A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.*

SURVEY COVERAGE

A. PURPOSE The purpose of this survey is to ascertain the number of students enrolled this term for advanced degrees, the students' fields of specialization, and their progress toward their degrees.

B SCOPE OF THE SURVEY Except for question 1 at the end of the survey form, this is NOT a survey of all students taking graduate study, but of all students enrolled for degrees beyond the baccalaureate.

1 Students to be INCLUDED in the report

a. INCLUDE IN PART A students enrolled for first-professional degrees in programs which require at least 2 academic years of previous college work for entrance and which require a total of at least 6 academic years of college work for completion. For example, include students enrolled for first professional degrees in Law (*LL.B. or J.D.*), Medicine (*M.D.*), etc. as specified on the form. Students enrolled for degrees beyond the first professional in these fields should be reported in Part B.

b INCLUDE IN PART B all other students enrolled for master's degrees; for 6-year degrees such as Education Specialist (*Ed.S.*), Civil Engineer (*C.E.*), etc., and for doctoral degrees (*Ph.D., Ed.D., etc.*).

2. Students to be EXCLUDED from this report.

a Students who, although known to be working on degree requirements, are not formally enrolled for study or dissertation this term

b Students enrolled in graduate level curriculums which lead to increased professional competence, but which do not terminate in an advanced degree. Students in certificate programs for school principals, for example, should be excluded

c "Special" and "unclassified" students taking courses at the graduate or first-professional level, but not enrolled for degrees.

d Post-doctoral students

e Students enrolled at a branch or extension center in a foreign country

C. CLASSIFICATION OF MAJOR FIELDS OF STU
Classification of the major fields of study used in survey has been presented in the following publica

U.S. Department of Health, Education, and Welfa Office of Education, National Center for Educatio Statistics. *A Taxonomy of Instructional Programs Higher Education.* By Robert A. Huff and Marjo Chandler. OE-50064-70.
Washington: U.S. Government Printing Office, 197 Price: $ .45.

D. EXHIBIT ITEMS

First-time students in fall 1972. Report the number o students (*in each discipline division*) who have compl less than one full year of required graduate study and enroll for an advanced degree for the first time in fal This number will be smaller than the total number of dents in their first full year of required graduate stud because it is restricted to those in their first year who not been enrolled for the advanced degree prior to th fall term 1972.

Doctoral candidates who have completed all but dis tion. Report the number of doctoral candidates who, the fall of 1972, have completed all course and other quirements for the degree except for the presentation defense of the doctoral dissertation.

NOTE. Listings of data for individual institutions regularly included in published reports of t survey.

See GENERAL INSTRUCTIONS and also the separate in tions provided for each of Parts A and B.

GENERAL INSTRUCTIONS

1. **Time period.** Report only those students enrolled as of the fall term of the current academic year (1972-73).

2. **Institutional coverage.** A separate report is requested from each branch or member of a system, as well as from each entirely independent institution and each "parent" institution. Please provide the information requested in item 6 on the cover page, which is intended to permit complete identification of the reporting unit. **Do not** include students enrolled by branches of your institution located in foreign countries.

3. **Consultation on problems.** If clarification of the definitions and instructions is needed, please consult the survey director, Mrs. Mary Evans Hooper, National Center for Educational Statistics, U. S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. You may reach Mrs. Hooper by telephone: (202) 962-7301.

4. **Returning forms.** Completed report forms should be addressed: Attention: Room 2136-HEGIS, National Center for Educational Statistics, U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C 20202.

5. **Major changes.** If the number of enrollments you report in any area is significantly larger or smaller than the number you reported last year, it will be most helpful if you will include explanatory notes on the form or on an accompanying sheet of paper. **If students are enrolled in a discipline specialty new to your institution this year, please indicate this by circling the "line number" in column 3.**

6. Please verify your entries and check all the addition before returning the form.

7. SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR PARTS A AND B.

INSTRUCTIONS FOR PART A: STUDENTS ENROLLED FOR FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS

See also the statement of "Survey Coverage" and the "General Instructions" for the survey.

Part A is restricted to enrollments for the first-professional degree in each of the 8 professions listed there. A first-professional degree is defined herein as one which meets all three of the following criteria: (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself

The "Other" category is to be used only in the event that there are enrollments for first-professional degrees within the 8 professions other than those specifically named in connection with those professions

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B. *(See "Survey Coverage, paragraph B.)*

In columns 4-7 report those students who have completed the previous college work *(pre-professional training)* required for admission to the professional school but who, prior to this term had completed less than two semesters or three quarters of full-time study or the equivalent in part-time study in the professional school. Note that these students are identified by the amount of study completed prior to this term, rather than by the number of semesters or quarters in which they have been enrolled.

In columns 8-11 report students who have completed one or more years of required study. Report in these columns stu-

dents who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study for the professional degree

Classification of enrollment by attendance status. A full-time student is one whose academic load in terms of course work or other activity *(such as a thesis, research, or required teaching)* is at least 75% of the load normally required of such students. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for an advanced degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on academic requirements. A part-time student is one who is carrying an academic schedule of less than three-fourths the normal load.

New Fields. Please circle the line number *(column 3)* if you are reporting students enrolled in a discipline specialty new to your institution this year. *(See "General Instructions," paragraph 5.)*

Foreign Students. Please answer the question on foreign students at the end of Part A. Foreign students are defined as all foreign nationals studying at institutions of higher education in the United States, regardless of whether or not they plan to remain in the United States

Add-Checks. Before submission, please verify that the TOTAL column *(column 12)* is the sum of columns 4-11 for each line entry. In addition, the TOTAL line *(line 14)* should show the sums of all entries in columns 4-12

INSTRUCTIONS FOR PART B. STUDENTS ENROLLED FOR MASTER'S AND HIGHER DEGREES, FALL 1972

See also the statement of "Survey Coverage" and the "General Instructions" for the survey.

1. TYPES OF ENROLLMENT. Report all students formally enrolled for degrees beyond the baccalaureate, except for those selected first-professional degrees specified in Part A. First-professional enrollments not reportable in Part A should be reported here. Also report in Part B all students formally enrolled in programs for degrees beyond the first-professional level.

2. GROUPING OF DISCIPLINES. The major fields of study to be reported here fall in the following discipline divisions:

0100	Agriculture and Natural Resources	1300	Home Economics
0200	Architecture and Environmental Design	1400	Law
0300	Area Studies	1500	Letters
0400	Biological Sciences	1600	Library Science
0500	Business and Management	1700	Mathematics
0600	Communications	1900	Physical Sciences
0700	Computer and Information Sciences	2000	Psychology
0800	Education	2100	Public Affairs and Services
0900	Engineering	2200	Social Sciences
1000	Fine and Applied Arts	2300	Theology
1100	Foreign Languages	4900	Interdisciplinary Studies
1200	Health Professions		

3. SKIPPING INAPPLICABLE DISCIPLINES. Skip those discipline divisions which are inapplicable to the programs of your institution. Many registrars, for example, will skip one or more of the following: 0100, 1200, 2300.

4. CLASSIFICATION OF ENROLLMENT BY MAJOR FIELD OF STUDY

(a) **Specific Classification.** Classify enrollments as specifically as the list of specialties in the broad discipline divisions of the report form permits. For example, report enrollment for an advanced degree in an "accounting" curriculum as Accounting (0502), NOT in Business and commerce, general (0501).

(b) **Majors of Students Preparing to Teach.** The general rule is to classify enrollments according to the major area of specialization. This means, in general, that majors of students preparing to teach an academic subject, such as English, biology, mathematics, or foreign languages, should be reported as appropriate in Letters, Biological Sciences, Mathematics, and Foreign Languages—NOT in Education. On the other hand, majors of students preparing to teach such special subjects as agriculture, art, music, etc. should be reported in Agricultural education (0899-1), Art education (0831), and Music education (0832).

(c) **Unlisted Fields of Study.** When classifying a specialty which does not seem to fit into the list, the institution has two choices: (1) it can be listed by name under "other" if it represents an unlisted specialty, or (2) it can be placed in a "general"-category if it covers several listed specialties.

(d) **General Majors.** The term "general major" is used to designate diversified curriculums within an area of study. Ordinarily a general major should be reported in one of the general categories of the report form, such as Physical sciences, general (1901), Social sciences, general (2201); Humanities and social sciences (4903), etc. For example, a concentration in History-Government-Economics should be reported in Social sciences, general.

(e) **Interdisciplinary Studies.** Code 4999 is for reporting fields of study which represent two or more broad discipline divisions, for example, Mass Communications, encompassing segments of psychology, education, business, journalism, social sciences, fine arts, etc., should be reported here. Specify the name of the interdisciplinary study when reporting in 4999.

5. CLASSIFICATION OF ENROLLMENT BY LEVEL OF STUDY

(a) Students who have completed less than one full year of required study for an advanced degree: Report in columns 4-7 those students who, prior to this term, had completed less than two semesters or three quarters of full-time graduate study or the equivalent in part-time study. Note that these students are identified by the amount of study completed prior to this term, rather than by the number of semesters or quarters in which they have been enrolled.

(b) Students who have completed one or more years of required study for an advanced degree: Report in columns 8-11 those students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study.

6. CLASSIFICATION OF ENROLLMENT BY ATTENDANCE STATUS. A full-time student is one whose academic load in terms of course work or other activity (*such as a thesis, research, or required teaching*) is at least 75% of the load normally required of such students. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for an advanced degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on academic requirements. A part-time student is one who is carrying an academic schedule of less than three-fourths the normal load.

7. NEW FIELDS. Please circle the line number (*column 3*) if you are reporting students enrolled in a discipline specialty new to your institution this year. (*See "General Instructions," paragraph 5.*)

8. EXHIBIT ITEMS. In each discipline, please report counts, or give your best estimates, for "first-time students in fall 1972" and "doctoral candidates who have completed all but dissertation." Please see explanation in the section on "Survey Coverage," paragraph D.

9. ADDITIONAL QUESTIONS. Please answer questions 1 and 2 at the end of Part B.
Question 1 pertains to graduate students not otherwise included in this survey.
Question 2 asks how many of the students in the grand total for Part B are foreign students. **Foreign students** are defined as all foreign nationals studying at institutions of higher education in the United States, regardless of whether or not they plan to remain in the United States.

10. ADD-CHECKS. Before submission, please verify that the discipline totals add up to the grand total, and that the TOTAL column *(column 12)* is the sum of columns 4–11 for each line entry.
